QUESTIONS

The following items are applicable to this amendment:

- a- **Question:** IEEE 802.3 allows for multiple speeds as a general specification. Each manufacturer determines his best fit to these requirements and designs multiple interfaces to comply with the specification.
- 1- What are the exact requirements for the 32 interface ports requested?
 - 2- Is there a minimum quantity for lower speed ports as compared to higher speed ports?
 - 3- What is the minimum size of the switching fabric expected?

Answer:

- 1- Must comply with standards as stated in the solicitation
- 2- There is no minimum quantity for lower speed ports compared to higher speed ports.
- 3- The minimum expected size of the switching fabric is 32 X 32.

- b- **Question:** Manufacturers also have different ways of powering this type of equipment and you have asked for a potential variation in the Optional Features "Item E". However, is there a specific power requirement for this equipment?

Answer: The switch should run off a standard 115V AC circuit.

- c- **Question:** Are services required as part of the response to the RFP – i.e. Installation, Turn-up and Test, Training.

Answer: No installation, Turn-up and Test or Training, please refer to Statement of Work on Page 3 of the solicitation.

- d- **Question:** Are there any anticipated quantities of switches that will be required in the first year of this agreement, or an overall estimate of switches required for the life of the contract

Answer: Please refer to page 12 of the solicitation, 52.216-22 Indefinite Quantity clause and page 3 for minimum and maximum.

- e- **Question:** Other than the three listed, are there any other "Ship To" locations, either domestic or overseas?

Answer: All possible shipping locations have been stated on page 5 of the solicitation.

- f- **Question:** Page 29 of the RFP references "Attachment 1" and lists an outline for testing the switch. Is there an attachment that was not posted with the RFP or is "Attachment 1" only the outline as listed?

Answer: Please refer to pages 18 of the solicitation, 52.212-2 Evaluation—Commercial items. Attachment 1 on page 20 of the solicitation is the only attachment.

- g- **Question:** I would like to clarify the following with regard to solicitation number N00178-05-R-2026. Specification number 12 on page 19 states "Switch shall be compliant with, as a minimum, ISO standard

FDDI/FDDI-II and optical Ethernet (IEEE 802.3/all speeds) standards". IEEE 802.3/all speeds have the following specifications:

- 100 Mbps Fast Ethernet (IEEE 802.3u)
- 1000 Mbps Gigabit Ethernet (IEEE 802.3z)
- 10-Gigabit 10 Gbps Ethernet (IEEE 802.3ae).

Do you want us to quote all three Ethernet standards or data rates?

Answer: Switch(s) shall be configurable to meet all three Ethernet standards
